## Registration Requirements

### Vehicle Registration

All vehicles in Singapore must be registered with the Land Transport Authority (LTA).

### Certificate of Entitlement (COE)

Engineering Plants (except concrete and cement mixer<sup>1</sup>) are exempted from the Vehicle Quota System, i.e. COE is not required for registration of these vehicles.

### Additional Registration Fee (ARF)

Engineering Plants (except concrete and cement mixer<sup>2</sup>) are exempted from payment of ARF.

---

<sup>1</sup> Concrete and cement mixer are classified under Category C. Alternatively, you can secure a COE under the Open Category (i.e. Category E). Please check the current COE information at the ONE.MOTORING portal (<https://onemotoring.lta.gov.sg>) or on the MyTransport.SG Mobile App (download the App "MyTransport Singapore" via the Apple App Store or Google Play).

<sup>2</sup> ARF for concrete and cement mixer is calculated at 5% of the Open Market Value (OMV) of the engineering plant.

## Technical Requirements

### Compliance with Road Traffic Act and its Subsidiary Legislations

All engineering plants to be registered in Singapore must comply with the Road Traffic (Motor Vehicles, Construction and Use) Rules and Road Traffic (Motor Vehicles, Lighting) Rules.

### Exhaust Emission Standards

The National Environment Agency (NEA) requires all engineering plants to be registered in Singapore to comply with the following exhaust emission standards:

Petrol-Driven must be:

Euro VI or JPN2009	For vehicles using <b>Port Fuel Injection</b>
Euro VI or JPN2009 + Euro VI PN limit	For vehicles using <b>Gasoline Direct Injection equipped</b> with NOx storage reduction catalyst
Euro VI or JPN2009 + JPN2009 PM limit + Euro VI PN limit or JPN2009 + Euro VI PM limit + Euro VI PN limit	For vehicles using <b>Gasoline Direct Injection not equipped</b> with NOx storage reduction catalyst

Diesel-Driven must be:

Euro VI or JPN2009 + Euro VI PN limit	For vehicles with MLW of up to 3,500kg
Euro VI or PPNLT + Euro VI PM number	For vehicles with MLW of more than 3,500kg

Certification for compliance with the exhaust emission standards issued by the vehicle manufacturer or LTA/NEA-recognised vehicle testing laboratories (see **Annex A**) must be produced. The vehicle must be tested before it can be imported for registration in Singapore. The format for Certificate of Compliance and test report is attached at **Annex B** (for petrol-driven vehicle) and **Annex C or D** (for diesel-driven vehicle).

### Registration Inspection

The engineering plant must pass inspection at any LTA-Authorised Inspection Centres (see **Annex E**) before it can be registered.

### Right-hand Drive

Only right-hand drive engineering plants are allowed to be registered for use in Singapore.

### Safety Belt

All engineering plants must be fitted with approved front and rear (for double cabin only) safety belts. The safety belt and its anchorage points must meet internationally recognised standards (e.g. ECE standard, British standard) and the labels must be mounted in the engineering plant, if applicable.

**Safety Glass**

All safety glass fitted onto the engineering plant must meet one of the recognised international standards e.g. ECE, DOT, BS, JIS, etc. The safety glass must meet the following requirements:

- a) Not less than 70% light transmittance for front windscreen and front side window glasses;
- b) Not less than 25% light transmittance for rear windscreen and rear side window glasses; and
- c) The glass of the front windscreen fitted to a vehicle shall not be made of a material or be of a design such as to prevent, obstruct or interfere with transmission of signals between an in-vehicle (IU) unit installed in such vehicle and any Electronic Road Pricing (ERP) facility. Windscreens that contain metallic oxide coating or are designed with defroster are known to have caused such interference.

**Rear Underrun Bumpers and Sideguards**

Engineering plants with MLW of more than 3,500kg or trailers must be fitted with approved rear underrun bumper and sideguards before they are allowed to be registered, if applicable. Rear underrun bumper and sideguards are protective devices fitted at the back and sides of these vehicles. In the event of a collision between a smaller vehicle and a heavy vehicle, they will cushion the impact of collision and minimise injuries to drivers and passengers in the smaller vehicle.

The underrun bumper and sideguards must comply with the requirements as specified in the EEC Directives 79/490/EEC and 89/297/EEC respectively, or such, other standards as may be approved by LTA. The design drawings of such devices are required to be endorsed by a local professional engineer or vehicle manufacturer who has carried out simulation by calculation or laboratory testing.

**Modifications to Vehicle**

You are advised to consult the vehicle manufacturer and seek approval from LTA before carrying out any modification to the vehicle. Such modifications must be approved by the vehicle manufacturer. In addition, the modification work has to be carried out by either the vehicle manufacturer or an agent authorised by the vehicle manufacturer. The vehicle manufacturer or the authorised agent must certify that the modification is done according to the procedures and requirements set out by the vehicle manufacturer.

**Asbestos-free Brake and Clutch**

NEA requires all newly registered vehicles to have asbestos-free brake and clutch linings. This requirement is gazetted under the Poisons Act.

**Chlorofluorocarbon (CFC)-free Air-conditioners**

NEA requires the air-conditioners installed in all newly-registered vehicles to use CFC-free refrigerant.

**Use of Hydrocarbon (HC) Refrigerants in Vehicle Air-conditioning Systems**

The use of HC refrigerants in vehicle air conditioning systems is not allowed. Refer to the Singapore Civil Defence Force's circular for more details:

<https://www.scdf.gov.sg/docs/default-source/scdf-library/scdf-circular-on-hydrocarbon-refrigerants-june-2015.pdf>

**High Intensity Discharge (HID) Headlamps**

Vehicles fitted with HID headlamps must be equipped with an auto-leveling feature.

**Speedometer**

All engineering plants must be able to permanently indicate/display vehicular speed in units of kilometres per hour (km/h).

**Speed Limiter**

All engineering plants with MLW of more than 12,000kg must be fitted with approved speed limiters with the set speed at 60km/h. The speed limiter must comply with European Standard 92/24/EEC or the British Standard BS AU 217: Part 1a: 1987.

---

## Step-by-Step Guide to Import an Engineering Plant in Singapore

### Step 1

Check if your engineering plant meets registration and technical requirements.

### Step 2

Ship the engineering plant to Singapore through a shipping agent.

### Step 3

Arrange with your shipping agent to obtain an **Inward Cargo Clearance Permit**. Your agent will have to submit an application to the Singapore Customs using the TradeNet® System. **Permit and processing fee and Goods & Services Tax (GST)** will be payable to the Singapore Customs through inter-bank GIRO. GST is computed at 7% of the total Cost, Insurance & Freight (CIF). For further information on the application for Inward Cargo Clearance Permit, please visit [www.customs.gov.sg](http://www.customs.gov.sg) or contact the Singapore Customs at:

**Singapore Customs**  
55 Newton Road  
#07-01 Revenue House  
Singapore 307987  
Tel: 6355 2000

### Step 4

Prepare documents for verification and registration of the engineering plant in Singapore. Please refer to the Step-by-Step Guide to Register an Engineering Plant in Singapore below.

## Step-by-Step Guide to Register an Engineering Plant in Singapore

### Step 1

Decide whether you want to register the engineering plant yourself or through a motor dealer to register the engineering plant for you. If a motor dealer registers the engineering plant on your behalf, they will carry out all or most of the following steps for you.

### Step 2

You must submit an application for a vehicle approval to LTA through the Vehicle Inspection and Type Approval System (VITAS). You need to pay an application fee of \$256.80.

Please refer to VITAS website (<https://vrl.lta.gov.sg/certlogin.html>) for more details on opening a user account and application procedures. If you do not have a registered account, you can submit your application to LTA, Vehicle Approval & Control Division, 10 Sin Ming Drive, Singapore 575701.

Documents to be submitted for verification include:

- a) Documents to prove compliance with the exhaust emission standards such as:
  - Letter of certification from the vehicle manufacturer that the engineering plant complies with the required exhaust emission standards; or
  - Certificate of Compliance on exhaust emission standards with test report from LTA/NEA-recognised vehicle testing laboratory;
- b) Detailed technical specifications of the engineering plant issued by the vehicle manufacturer (e.g. technical catalogue, etc);
- c) Original Manufacturer/Purchase Invoice to state make/model, engine number, chassis number, year of manufacture, engine capacity, unladen weight and maximum laden weight; or foreign vehicle registration documents (for used engineering plant). A statutory declaration is necessary if original documents are not available;
- d) Bill of Lading; and
- e) Inward Cargo Clearance permit.

All documents submitted **MUST** be in the English language. Notarised translations are acceptable.

Once in-principle approval has been given, you will be notified to send the engineering plant for inspection at any LTA-Authorised Inspection Centres where an inspection fee will be charged.

After your engineering plant has passed the inspection, an approval letter with a Vehicle Approval Code (VAC) will be issued to you. With this VAC, you may proceed to register the engineering plant.

**Step 3**

A Vehicle Parking Certificate (VPC) is required for any of the following vehicles:

- a) Heavy goods vehicle or concrete/cement mixer with MLW of more than 5,000kg;
- b) Bus with a seating capacity of more than 15 persons, excluding the driver;
- c) Trailer, container trailer, low loader or flat-bed trailer, with MLW of more than 5,000kg;  
or
- d) Mobile crane or recovery vehicle with unladen weight of more than 2,500kg.

**Step 4**

Once all information and documents are in order, you can make an appointment (by email: [feedback@lta.gov.sg](mailto:feedback@lta.gov.sg)) to submit the following documents to LTA, Vehicle Quota & Registration Division, 10 Sin Ming Drive, Singapore 575701 for registration:

- a) Application for Registration and Licensing of a Motor Vehicle (Form R01). Refer to "Forms" at <https://onemotoring.lta.gov.sg> for the latest form;
- b) Identification documents of the vehicle owner:
  - For individual owners
    - Original NRIC [for Singaporeans and Permanent Residents (PRs)] or Employment/Immigration pass card issued by the Ministry of Manpower (MOM)/Immigration & Checkpoints Authority of Singapore (ICA) (for foreigners).
  - For companies
    - Printout of the business profile of the company from the Accounting & Corporate Regulatory Authority (ACRA). This printout is valid up to 14 days from the date of issue;
    - Original NRIC (for Singaporeans and PRs) or Employment/Immigration pass card issued by MOM/ICA (for foreigners) of the authorised person from the company; and
    - Original authorisation letter, signed by at least a Manager or above, if the authorised person of the company is not listed in the ACRA printout.
  - For organisations
    - A copy of certificate issued by the Registry of Societies or relevant regulating authority; and
    - Original NRIC (for Singaporeans and PRs) or Employment/Immigration pass card issued by MOM/ICA (for foreigners) of the authorised person from the organisation;
- c) Approval letter with VAC;
- d) Temporary COE (TCOE) (if applicable);
- e) Valid Motor Insurance Cover;
- f) Notice of Retained/Bid Vehicle Registration Number (if any);

- g) Approval letter from the relevant authorities, if the engineering plant is to be registered under a special scheme (if any);
- h) VPC (if any); and
- i) Inward Cargo Clearance Permit.

Total fees payable via Cashier's Order, Cash or NETS:

- a) Processing Fee of \$25 (before GST) per application (if registration is done at LTA's office);
- b) Registration Fee of \$220; and
- c) Road Tax
  - i) For concrete and cement mixer, mobile crane and concrete pump, please refer to <https://onemotoring.lta.gov.sg> for the latest road tax rate under "Buying", "Upfront Vehicle Costs", "Vehicle Tax Structure".; and
  - ii) For others, road tax is exempted.

#### **Step 5**

Collect the following from LTA, Vehicle Quota & Registration Division, 10 Sin Ming Drive, Singapore 575701 upon registration of the engineering plant:

- a) Notification of registration; and
- b) Receipt.

#### **Step 6**

Upon successful registration, a vehicle registration number will be assigned to the engineering plant, unless a retained or bid vehicle registration number is used. You have to affix the vehicle registration number plates on your engineering plant within 3 days of registration.

**Registration Documents Checklist**

---

- Check against this list to ensure that you have all the necessary documents to register your engineering plant.**
  - Letter of certification from the vehicle manufacturer that the engineering plant complies with the required exhaust emission standards; or  
Certificate of Compliance on exhaust emission standards with test report from LTA/NEA-recognised vehicle testing laboratory
  - Original Manufacturer/Purchase Invoice or foreign vehicle registration documents (for used engineering plant)
  - Bill of Lading
  - Application for Registration and Licensing of a Motor Vehicle (Form R01)
  - Original identification document of vehicle owner (e.g. NRIC for Singaporean and PR or Employment/Immigration pass card for foreigner)
  - Approval letter with VAC
  - Temporary COE (TCOE) (if applicable)
  - Valid Motor Insurance Cover
  - Notice of Retained/Bid Vehicle Registration Number (if any)
  - Approval letter from the relevant authorities, if the engineering plant is to be registered under a special scheme (if any)
  - VPC (if any)
  - Inward Cargo Clearance Permit
  - Cashier's Order, Cash or NETS payable to LTA
- 

Printing date: January 2021
