

ERP 2.0

All you need to know about switching from IU to ERP 2.0's On-Board-Unit

The all-new OBU

With the switch to ERP 2.0, motorists will need to replace their In-vehicle Unit (IU) with LTA's new On-Board Unit (OBU). Here are some key things to know about the OBU and getting it installed.

There are 2 types of OBU:

Key features:

Provides ERP charging information at ERP charging locations, payment alerts and card balance.

Alerts at School Zones, Silver Zones, speed cameras, bus lanes and many more (for three-piece OBU only).

Facilitates ERP and parking payment via valid CEPAS cards* (e.g., NETS Flashpay or NETS/EZ-Link Motoring cards).

In the future, it will also enable payment of usage licenses for off-peak cars, classic and vintage vehicles, checkpoint tolls, and roadside electronic parking.

Applicable for three-piece OBU

While we recommend that you install the Touchscreen Display, you have the option of not doing so. You can choose to access ERP information through compatible mobile applications instead.

*Note: CashCards and SimplyGo EZ-link cards are incompatible with the OBU.

Installing your OBU

Here's what you need to do to install the OBU in your vehicle.

1

Find a workshop

Scan the QR code or visit go.gov.sg/book-obu to find a suitable LTA-authorised workshop.

Find a Workshop

Here are the suitable workshops for your vehicle. Please contact the workshop directly to book an appointment.

Filter by location or name of workshop
按地址或名称中心搜索 / Cari Bengkil Melalui Alamat
Atau Nama / 按地址或名称搜索 / 按名称搜索
@/nama/alamat/atau_nama/

Q. E.G. 541206, SIN MING OR VICOM

SEARCH WORKSHOPS

2

Book an appointment

Call or WhatsApp your selected workshop directly to schedule an appointment.

WHATSAPP

CALL WORKSHOP

Head to the workshop

The technician will explain OBU processing unit placement options for your vehicle. Once confirmed, you can leave your vehicle at the workshop and collect it when ready.

3

4

After installation

Your OBU is now ready for use. You may visit go.gov.sg/obu-eservices to view the transaction history and expiry date of your OBU warranty.

If you have opted to use a mobile application, you will need to register your smartphone via OneMotoring Digital Services before pairing it with your OBU.

Payments with your OBU

You can continue to pay with valid CEPAS cards (e.g. NETS/ EZ-Link Motoring Cards). Keep a spare card for paying at private carparks that do not support Electronic Parking Systems (EPS).

We also encourage you to sign up for NETS Auto Top-Up to conveniently top-up your card value.
