

# Be a Responsible Motorist

## Obey Traffic Light Signals

Signals convey important messages and help traffic move smoothly. While most signals look familiar, their messages are often misunderstood by motorists.

**RED** : "Stop". Do not start to move until the green light appears in your favour.

**AMBER** : "Stop" unless you are so close to the stop-line when the lights turn AMBER that you cannot stop safely.

**FLASHING AMBER** : The traffic light signals are out of order. Proceed with caution. Give way to traffic on the right.

**GREEN** : "Go". Look to the right and left to ensure it is safe before you proceed.

When approaching traffic junctions with arrows

• **STOP** behind the stop-line in the direction indicated  
(Do not turn right even when there is no traffic from the opposite direction)

• **READY TO STOP** behind the stop-line in the direction indicated

• **GO** in the direction indicated (Turn right)

Examples:

"Go" if going straight.  
"Stop" and wait behind the stop-line if turning right.

"Go" if going straight.  
Wait for opposing traffic to clear and pedestrians to finish crossing the road before turning right.
