1 Change from GIRO to FAST Service

- 1.1 Since the implementation of LTALink System, Electronic Service Agents (ESAs) are given access to LTALink System to perform vehicle-related transactions on behalf of vehicle owners. The taxes/ fees collected on behalf of LTA are deducted from ESAs' bank accounts via daily backend GIRO arrangement after these transactions were successfully completed. Every ESA is given a Transaction Limit (based on ESA's functions and transaction history) which caps the transaction amount that the ESA can perform. For ESAs who need to transact above this cap, requests for Transaction Limit Increase (supported by security deposit in the form of fund transfer or banker's guarantee) need to be submitted to LTA, and the transactions need to be completed before the cut-off time for settlement using fund transfer.
- 1.2 We have reviewed the process and would leverage the Fast And Secure Transfers (FAST) for fund transfers to replace the current Transaction Limit framework with backend GIRO arrangement for the LTALink System. This will improve efficiency and allow ESAs to perform transactions with instantaneous deduction of payments without the Transaction Limit restriction.

2 FAST Service

- 2.1 Under FAST arrangement, each transaction submitted by the ESA will be immediately sent to the bank for deduction of payment from the ESA's bank accounts. The payment status will be updated to the LTALink System and the transaction will be successfully completed upon the successful deduction of the payment. For failed payment, ESAs will have to re-perform the transaction. For partial payment (which applies only to transactions above \$200,000¹), ESAs can either make FAST payment for the remaining amount or cancel the transaction (where refund of the partial payment will be made to the ESAs).

¹ Each FAST transaction is capped at \$200,000. If the transaction is above \$200,000, LTALink System will split into multiple FAST transactions for sending to the bank. Partial payment would occur when any of the FAST transactions is not successful.

- 2.2 **The FAST arrangement is mandatory for all ESAs using the LTALink System. Every ESA must have 2 Direct Debit Authorisation (DDA)² arrangements with LTA, as the LTALink System will send the transaction to either of the 2 banks to deduct the payment using FAST from the ESAs' bank account. ESAs need to maintain sufficient bank balance in their bank account before submitting the transaction in the LTALink System, as the transaction will only be successfully completed upon successful FAST deduction of the full payment for the transaction.**

3 Counter Balance [Optional Feature]

- 3.1 This is an optional feature in the LTALink System to help ESAs with multiple users better manage their transactions to match the funds made available in their bank accounts. This Counter Balance allows an ESA to specify a total transaction amount for all the transactions to be performed in the LTALink System. It tracks the total amount transacted by each of the users in the LTALink System and the remaining balance (at ESA level) from the specified total transaction amount. The Counter Balance is reduced by each successful FAST payment from ESA and increased by each successful FAST refund to ESA.

This Counter Balance can be made visible to all users under the same ESA, so that the users know the remaining balance available before they perform any transaction, to avoid the need to re-perform the transaction (if it cannot be completed due to failed FAST payment as a result of insufficient funds in the bank).

- 3.2 For example, ESA sets aside \$500,000 in the bank (whose actual bank balance may be above \$500,000 e.g. \$600,000) for transactions to be carried out in the LTALink System, and updates \$500,000 at the Counter Balance.

If user A and user B of the ESA complete transactions of \$20,000 and \$310,000 respectively, the Counter Balance of the ESA will be reduced to \$170,000 (i.e. Counter Balance \$500,000 – user A's \$20,000 – user B's \$310,000).

² The processing time for setting up DDA by banks ranges from 3 to 4 weeks. To ensure successful transaction, ESA should maintain the 2 DDAs at all times (for crediting to either LTA's DBS or OCBC bank account). If ESA needs to change bank account, new DDA Forms should be submitted to LTA in advance, and the existing bank account should only be closed after the new DDAs have been set up.

If user C of the ESA wishes to proceed with a transaction of \$400,000, he/she should not proceed as the Counter Balance is showing \$170,000 to avoid any failed FAST deduction at the ESA's bank account.

However, if user C of the ESA proceeds to perform the transaction of \$400,000, it will result in partial deduction of \$270,000 (i.e. Bank balance \$600,000 – user A's \$20,000 – user B's \$310,000), the Counter Balance will be reduced to negative \$100,000 (i.e. Counter Balance \$500,000 – user A's \$20,000 – user B's \$310,000 – user C's \$270,000).

User C's transaction will be pending for outstanding FAST payment in the LTALink System. The user can retrieve the outstanding payment in "Make Outstanding FAST Payment" before 7 pm of the day to make FAST payment for the remaining amount (\$130,000) after topping up funds in the ESA's bank account. Alternatively, the user can cancel the transaction where \$270,000 will be refunded (if cancellation is done before cut-off time of 7 pm). Once cancelled before cut-off time and FAST refund is successful, the Counter Balance will be increased by \$270,000 to \$170,000.

- 3.3 The FAST payment will take place based on the actual bank balance in the ESA's bank account, and not the Counter Balance. Hence, the users can still submit a transaction even if the Counter Balance is negative, and FAST payment will still be sent to the bank. Refer to Appendix I "Counter Balance".

4 Types of FAST Payment

4.1 Successful FAST Payment

Each transaction submitted by the ESAs will be immediately sent for FAST deduction from the ESAs' bank account. The bank will instantaneously return the FAST payment status to the LTALink System which will allow the transaction to be completed successfully upon the successful FAST deduction. Refer to Appendix II "Successful Payment".

4.2 Failed FAST Payment

For transaction sent for FAST payment whose status is returned by the bank as unsuccessful, LTALink System will not allow the transaction to be completed. ESA will need to re-perform the transaction. Refer to Appendix II "Failed Payment".

4.3 Partial FAST Payment

For transaction sent for FAST payment whose status is returned by the bank as partially successful (applicable only for transaction whose value is above each FAST transaction cap of \$200,000), LTALink System will put the transaction under “Make Outstanding FAST Payment” to be completed by 7 pm of the same day. Refer to Appendix II “Partial Payment”.

5 System-Triggered Transaction

- 5.1 Besides transaction done online by ESAs, there are also system-triggered transactions, such as extension of temporary transfer vehicle ownership period, recall activation/ monitoring, etc. Such system-triggered transactions will also be sent for FAST payment by LTALink System automatically. To avoid failure, ESAs should ensure that there are sufficient funds in their bank account to cater for such system-triggered transactions as well. If the FAST payment is not successful, the transactions will need to be settled by the ESAs by initiating separate fund transfer to LTA’s designated bank account.

6 Exceptions

- 6.1 DDA arrangement is a prerequisite for FAST services and is mandatory for all ESAs. ESAs whose DDA arrangements have not been set up will not be able to use FAST Services. LTALink System will not allow transactions submitted by such ESAs to be completed.
- 6.2 Please sign up and maintain the 2 DDA arrangements with LTA at all times. Pending the set-up of the DDA arrangements, ESAs will need to approach LTA for alternative offline arrangement, subject to LTA’s approval. Refer to Appendix III “No DDA Arrangement”.

7 Enquiry

- 7.1 ESAs can enquire on their own transactions in the LTALink System. The enquiry can be used for reconciliation against the bank statement to tie the transactions (both online and system-triggered) to the bank statement items. Refer to Appendix IV “Enquiry”.

Appendix I: Counter Balance

(1) Step 1: ESA logs in to LTALink System.

Counter Balance is visible to users under the same ESA if “Counter Balance Visibility” is indicated as “Yes”.

The screenshot shows the LTALink System user interface. At the top, there is a header with the LTA logo and navigation links: Vehicle Hub, Licensing, Ownership, Finance, Report/Data, VITAS, ESA Info, and Logout. The user is logged in as 'Aa User 22' with a session date of 26 Aug 2020. A blue box highlights the 'Counter Balance: \$0.00' in the top right corner. Below the header, there is a welcome message: 'WELCOME TO LTALink'. A message states: 'Aa User 22, your last login date and time was 26 Aug 2020, 10:33:11. Visit ESA Info for latest LTA Circulars, SOPs and LTALink Bulletin or Feedback to LTA. IMPORTANT NOTE FOR IE7 USERS: Please close your IE7 browser after logout from LTALink, if multiple tabs are being used. Failure to close the browser may result in unauthorised access to your LTALink account if your computer is left unattended. Click here for our guide on how to logout properly.' The Land Transport Authority logo is visible at the bottom right.

(2) Step 2: ESA goes to “Finance -> Update AA Particulars”.

The screenshot shows the LTALink System user interface with the 'Finance' menu open. The menu items are: Make pending payment, Make outstanding FAST payment, Reprint receipt, Declare daily tender, Reconcile payment, Perform refund, and Update AA particulars. The 'Update AA particulars' item is highlighted. The user is logged in as 'Aa User 22' with a session date of 26 Aug 2020. The counter balance is \$0.00. The browser address bar shows the URL: https://lta.gov.sg/9070/ita/vrl/action/initialAuthorisedAgentAddress?FUNCTION_ID=F1304007UT&windowID=4149368&random=1598409270360.365953. The Windows taskbar is visible at the bottom.

20200722080648030076	\$3,601.00	Approved	Succ-Success	-

Message: Note: We have deducted \$53,601.00 from your bank account. You can either make payment later for the outstanding amount of \$10,000.00 or cancel transaction for refund of \$53,601.00. Any outstanding payment must be made by today, 22 Jul 2020 before 1400, or else the transaction will be voided.

Buttons: Make Payment Later, Cancel Transaction

\$53,601 is successfully deducted, and 1 deduction of \$10,000 (Payment Method Reference 20200722080644837121) failed.

E.g. for illustration purpose, if FAST transaction cap is \$10,000³, a registration transaction of \$63,601 will be split into 6 FAST payments of \$10,000 and 1 FAST payment of \$3,601. Each FAST payment will be processed by the bank separately and returned to LTALink System, and will be reflected in ESA’s bank statement as separate line items. If any of the FAST payments is returned by bank as failed, the registration transaction is considered pending (with partial payment), and will be put under “Make Outstanding FAST Payment”.

Before cut-off time of 7 pm on the same transaction date, ESA can retrieve the outstanding payment transaction under “Make Outstanding FAST Payment” to either:

- (a) Submit for FAST payment of the remaining amount (after bank account has been topped up with sufficient funds) by clicking “Make Payment” button; or
- (b) Cancel the pending payment transaction to get immediate refund via FAST (back to the same bank account under DDA arrangement) by clicking “Cancel Transaction” button.

³ \$10,000 is for illustration only. The current actual FAST cap is \$200,000 per deduction.

Aftet cut-off time of 7 pm on the same transaction date, if the outstanding payment transaction is left pending, LTALink System will void the pending transaction and create backend refund for the partial payment. The refund will be processed backend by LTA within 3 weeks and returned to ESA via FAST (back to the bank account under DDA arrangement). Voided transaction will be put back to “Register New Vehicle Summary List (Save-As-Draft)”.

- (a) In the illustration above, after ESA retrieves the outstanding payment transaction to make payment again, LTALink System sends the remaining \$10,000 for FAST payment. If successful, the pending transaction will be completed and removed from “Make Outstanding FAST Payment”. If not successful, the outstanding payment transaction will be put back to “Make Outstanding FAST Payment” again.

2020081094938624184	\$10,000.00	Approved	Succ Success	-

Remaining \$10,000 is deducted under new Payment Method Reference 2020081094938624184.

- (b)(i) In another illustration below, a registration transaction of \$59,600 is sent for FAST payment with partial payment (\$49,600). When ESA retrieves the outstanding payment transaction to cancel before cut-off time of 7 pm, LTALink System will send the partial payment of \$49,600 for FAST refund to ESA (back to the same bank account under DDA arrangement) immediately. If successful, ESA will see the message indicating that the transaction is voided and the partial payment is refunded. The voided transaction is removed from “Make Outstanding FAST Payment”.

Message

A refund request 20200722090922242535 has been created. [FN09090]

Appendix III “No DDA Arrangement”

For ESAs without DDA arrangement (e.g. waiting for the DDA arrangement to be set up), ESA will see message indicating “You do not have a valid Direct Debit Authorisation (DDA) arrangement for FAST transaction. Please contact LTA for alternative arrangement.” after submitting transaction.

The screenshot shows the LTA Link system interface. At the top, there is a header with the LTA Link logo, a user status indicator "NEW User Acceptance Testing / Training V17.3.2 JRE version: 1.8.0_231", and user information "Welcome, Aa User 30 Session Date: 20 Jul 2020 Counter Balance: \$ 242,663.00". Below the header is a navigation menu with items like Vehicle Hub, Licensing, Ownership, Finance, Report/Data, VITAS, ESA Info, and Logout. The main content area displays a "Collect Payment" section with "Payment Transaction Details" and a "Message" box. The message states: "You do not have a valid Direct Debit Authorisation (DDA) arrangement with LTA for FAST transaction. Please contact LTA for alternative arrangement. [FN09094] Your transaction has been cancelled. [FN09087]". An "OK" button is visible below the message. At the bottom of the page, there is a small disclaimer: "Please do not use your browser's Back or Forward buttons as this may result in information loss".

Please contact the following LTA Finance officers on the alternative arrangement:

Name of Officer	Designation	Contact Number	Email Address
Sumitha Panneerselvam	Assistant Manager, Collections, Receivables & Refunds	6553 5526	Sumitha_Panneerselvam@lta.gov.sg
Gena Tan	Senior Finance Executive	6553 5296	Gena_Tan@lta.gov.sg
Krystal Heng	Senior Finance Assistant	6553 5206	Krystal_Heng@lta.gov.sg

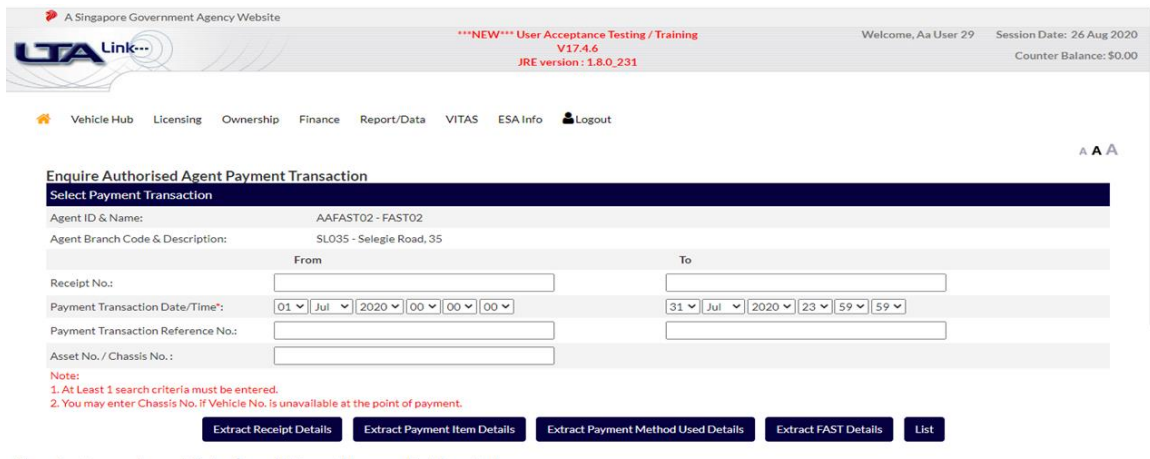

Appendix IV “Enquiry”

ESAs can enquire FAST transactions from the LTALink System to tally with their bank statements.

- (1) Step 1: ESA logs in to LTALink System and goes to “Finance -> Reconcile payment -> Enquire payment details”.

- (2) Step 2: ESA enters enquiry criteria, e.g. “Payment Transaction Date/Time” and clicks “Extract FAST Details”.

(3) Step 3: LTALink System will display the list of transactions and ESA can either click “Save” or “Save as Excel” button.

Below is the definition of the commonly used fields in the enquiry, where the status may change at the point of enquiry:

Field Name	Definition
PaymentTransRefNum	Payment Transaction Reference Number refers to the reference tied to each payment record, where 1 payment record will have 1 Payment Transaction Reference Number.
ReceiptNo.	Receipt Number is assigned based on the format: AgentID-Branch ID-YYMMDD-XXXXXX (where X is running number).
BizTransRefNum	Business Transaction Reference Number refers to the reference tied to each business transaction (e.g. registration), where 1 payment record will have 1 Business Transaction Reference Number.
Asset No./Chassis No.	Chassis number will be displayed for registration transaction, while asset number e.g. vehicle number will be displayed for other vehicle-related transactions.
BizxnsStatus	Business Transaction Status refers to whether the transaction is completed. Transaction with successful deduction will have “Approved” Business Status, while partial deduction will have “Pending” Business Status. Upon cancellation or voiding of the outstanding payment transaction, the Business Status will be changed to “Failed”.
PaymentMthdRefNum	Payment Method Reference Number refers to the reference tied to each FAST transaction sent to the bank for deduction, where 1 payment record may have more than 1 Payment Method Reference Number (if there are multiple FAST transactions). This is the reference most likely to be reflected in bank statement.
PaymentStatus	Payment Status reflects the deduction status of the FAST transaction tied to each Payment Method Reference Number. Successful and failed FAST deduction will be shown as “Approved” and “Failed” respectively. “Voided” Payment Status means the outstanding payment transaction (with partial deduction) has been cancelled by ESA or voided by LTALink System.
PspDeductionDate&Time	PSP Deduction Date & Time refers to the date and time where the FAST deduction is processed by the bank.
PaymentAmount	Payment Amount refers to the amount of the FAST transaction tied to each Payment Method Reference Number and is capped at \$200,000 each. If the transaction amount exceeds \$200,000, there will be more than 1 Payment Method Reference Number.

Field Name	Definition
BankSwiftCode	Bank SWIFT Code is the ESA's bank code in the DDA where money will be deducted.
BankSwiftAccountNo	Bank SWIFT Account Number is the ESA's bank account number in the DDA where money will be deducted.
VoidRefNum	Void Reference Number refers to the reference tied to each FAST transaction sent to the bank for refund. This is the reference most likely to be reflected in bank statement.
Void-BankSwiftCode	Bank SWIFT Code is the ESA's bank code in the DDA where money will be refunded.
Void-BankSwiftAccountNo	Bank SWIFT Account Number is the ESA's bank account number in the DDA where money will be refunded.
